High-Efficiency Return Grille-Mount Electronic Air Cleaner

Standard Features

- Pre-filters (2) are constructed of aluminum mesh to prevent lint and large particles from entering the collecting cells
- Collecting cells (2) are constructed of heavy-gauge aluminum for durability and ease of maintenance
- Plastic intake grille is easy to wipe clean
- Hinged, swing-out door allows easy access to filters
- Automatic interlock switch disconnects power when door is opened
- Electronic Air-proving Switch (AS) allows for quick wiring; automatically cycles air cleaner on/off with the system fan
- Performance indicator light (green LED) indicates high voltage to the collecting cells, ensuring air cleaner is operating properly at a glance
- Solid-state power board is manufactured on site for high reliability and long life; uniquely equipped with a variable resistor (potentiometer) to adjust high voltage output, if necessary

Cabinet Features

- Durable powder coat paint finish on heavy gauge steel resists abrasion and provides trouble-free wall or ceiling mount installation
- Holes are provided to facilitate mounting to duct work
- Easily installs on the wall or ceiling in the main return duct of a central forced air heating/cooling system; slides into ceiling box installed within trusses on 24" centers without structural alterations
