- 10-Year control limited warranty*

* To receive the 10-Year Control Limited Warranty, online registration must be completed within 60 days of installation and the unit must be installed in conjunction with a new, properly matched split system air conditioner, heat pump, or gas furnace containing a communicating system that is compatible with the control and is also registered within 60 days of installation. Online registration is not required in California or Quebec. Full warranty details available at www.goodmanmfg.com.

ComfortNet™ High-Definition Communicating Control System

For Residential and Light Commercial Applications

The ComfortNet™ Communicating Control System continuously monitors itself and the system. If it senses a problem developing, the touchscreen control Home Screen Display will indicate “Call for Service” and CHECK (i.e., Furnace Heatpump, Air Conditioner, Air Handler) to identify an equipment fault. This prompts the end user to contact a qualified service technician.

The ComfortNet High Definition Communicating Control System works with Goodman® and Amana® brand HVAC products and systems. Look for the ComfortNet Compatible identification.
